

Jainsons Electronics

www.jainsonselectronics.in

We have brought forth the latest developments in manufacturing, supplying and exporting a wide range of Solar Products. Having applications in multipurpose lighting systems and solar activities, these products are in great demand.

Profile

Established in the year **1997**, at **Delhi (India)**, we, **“Jainsons Electronics”**, are one of the leading manufacturers, exporters and suppliers of a superior quality collection of Solar Lightening Products, Solar Lantern, Solar Water Heater etc. We are an **ISO 9001:2008** certified. Our products are known for their longer service life, excellent performance, high illumination, robust construction and user friendliness. We use premium quality raw material and advanced technology for the designing of these products. Being a quality-conscious firm, we ensure that all our products are absolutely perfect in each and every aspect. Also, we have successfully maintained great track record in both, national and international market, by offering premier quality products, which are simply irresistible and cost-effective.

Backed by our highly experienced professionals, we are involved in offering the best quality products in standard as well as customized options as per our clients' various specifications. Further, we also provide total information for our product range, which includes installation and maintenance. Due to these facilities, we are able to carve a niche for ourselves in the industry.

Under the proficient guidance of our mentor, **“Mr. Rajeev Jain”**, we are able to offer world class products within the stipulated time frame. His rich industry experience and in-depth knowledge also help us increase our credibility in the industry. We exports our products to **all over the world**.
